

Snigdha Rani Das

Dhaka, Bangladesh | das2305341278@diu.edu.bd | +880-1795683355 | github.com/SnigdhaDas

PROFILE

Final-year Software Engineering student with strong academic performance and growing interest in teaching, mentoring, and research-driven learning. Passionate about applying technology, AI tools, and project-based learning to improve student outcomes and contribute to modern academic environments.

EDUCATION

- **Daffodil International University**, Dhaka
B.Sc. in Software Engineering Jan 2023 – Dec 2026 (Expected)
- **BEPZA Public College**, Dhaka
Higher Secondary Certificate (GPA: 4.67) 2021
- **A.E.R.E School and College**, Dhaka
Secondary School Certificate (GPA: 4.33) 2019

TEACHING & MENTORING EXPERIENCE

Mentored junior students in programming fundamentals including C, Python, and SQL.

Assisted peers in database design, system analysis, and academic project development.

Provided informal academic support in group study environments and collaborative learning sessions.

ACADEMIC ENGAGEMENT

- **NASA International Space Apps Challenge** Oct 2024
Galactic Problem Solver
 - Participated in a global interdisciplinary innovation challenge focused on space-related problem solving.
 - Contributed to a research-oriented project titled “Beyond Sunlight: An Aquatic Chemosynthetic World.”
 - Developed collaboration, analytical thinking, and scientific communication skills.

PROJECTS

- **JatraPath — Next.js, React, Map Integration** 2026
 - Developed a Dhaka-based smart transport visualization system using Next.js and React.
 - Implemented route mapping between two destinations with available bus detection.
 - Designed interactive map-based UI for visualizing urban transport routes in Dhaka.
- **DIU Transport Management System — System Design** 2025
 - Designed a system to support bus search, seat availability, and ticket booking workflows.
 - Applied UML, DFD, and ER modeling for structured system analysis and documentation.
- **Room Rent Management System (Basakhuji) — SQL** 2024
 - Built a relational database system for rental tracking and financial management.
 - Designed optimized SQL queries for reporting and structured data retrieval.
- **Cafeteria Management System — C Programming** 2023
 - Developed a console-based system for menu selection and billing operations.

TECHNICAL SKILLS

Programming: Java, C, Python, SQL, JavaScript

Frameworks: React, Next.js

Tools & Platforms: Git, GitHub, VS Code, Overleaf, MS Office, Canva, Figma

AI & Data: Basic Python for data analysis, AI-assisted tools

Concepts: Data Structures & Algorithms, OOP, Database Systems, System Design

Interests: Teaching, AI in Education, Data Science, Human-Centered Learning Systems

LEADERSHIP & ACTIVITIES

- Member, Voluntary Service Club (VSC)
- Deputy, International Relations Wing, Software Engineering Club (DIU)

CORE STRENGTHS

- Strong communication and teaching-oriented mindset
- Ability to simplify complex technical concepts
- Fast learner with adaptability to academic environments
- Strong discipline and consistent academic performance
